Fabricator Instructions

Upon request, the Collector top may be shipped separately to a fabricator for welding to table.

Use the above dimensions for the table cut out. Place the Scrap Collector (S914) top or the Pot/Pan Scrap Collector (P914) top to the underside of the table for welding. **Attention:** When attaching the Scrap Collector or Pot/Pan Scrap Collector top to the table, make sure the top is mounted in the table with the recirculated water opening (water plume) on the same side as the dishmachine. Leave a minimum of 24 inches between the Collector and the loading end of the dishmachine to allow space for the dish rack.

### Installation

Attach Collector tank to the Collector top. The tank must be oriented so that the recirculation plumbing is properly aligned. The control, pump and incoming water will be on the opposite side of the recirculation hose. Connect gusher plate and flexible recirculation hose to the Collector. Adjust the legs until they extend to the floor. **Note:** Before installation of the Collector tank to the top, confirm that the pre-installed gasket is affixed to the bottom of the Collector top.

The control and sensor can be mounted on either side of the Collector with existing fasteners, mounting holes and wiring to accommodate dish flow to the left or to the right. It is not necessary to disconnect factory-installed wiring.

The control and sensor should always face the operator.

If necessary, the control can be mounted remotely. Additional field wiring and hardware will be necessary. Contact service for installation advice.

STOP! If you have any questions about this installation call 1-888-SALVAJOR for installation advice.
**WATER SUPPLY**
Plumb 3/4” lines from both hot and cold water supply sources and reduce to 1/2” before attaching to corresponding valves on the Scrap Collector or Pot/Pan Collector water harness.

**Note:** Collector will not operate properly if water connections are reversed. Ball valves and water blender are clearly marked with hot and cold labels.

To assure against leaks, tighten water harness fittings. They may come loose during shipment, fabrication or installation. Pressure regulators should be installed in areas where water pressure exceeds the recommended maximum of 80 psi.

**IMPORTANT:**
The Salvajor Scrap Collector or Pot/Pan Collector is equipped with a UPC approved air gap, eliminating the need for vacuum breakers.

**DRAIN PIPING**
Plumb a 2” pipe from the 2” male threaded nipple located on the bottom of the Collector reservoir tank to the nearest approved drain. The drain line should have a minimum of 1/4” slope of fall per running foot. It is the responsibility of the plumbing contractor to check all connections to ensure they are free of leaks and meet all codes.

**MAKE ALL PLUMBING CONNECTIONS IN ACCORDANCE WITH NATIONAL AND LOCAL PLUMBING CODES.**

---

**Electrical**

**ELECTRICAL**
The pump motor and solenoid are factory pre-wired.

Only one electrical connection is required if the control is installed with the provided wiring and mount. Run power from the building source to the 1/2” knockout on the bottom of the control.

If necessary, the control can be mounted remotely. Additional field wiring and hardware will be necessary. Contact service for installation advice.

**IMPORTANT:**
The pump must be checked for proper rotation as indicated by an arrow on the pump.

Complete wiring diagrams will be found inside control panel. Always use watertight conduit and fittings when wiring this product.

(Pot Pan Scrap Collector similar)
Operating Instructions

TO START:

1. Place OVERFLOW PIPE into drain opening in bottom of tank (center hole).
2. Position SCRAP BASKET inside tank.
3. Position SCRAP BASIN inside tank over SCRAP BASKET.
4. Press START button on CONTROL PANEL.
   (See HydroLogic Control Operating Instructions below.)
5. Adjust WATER PLUME VALVE. Recommended plume height 4-6”.

(Scrap Collector shown - Pot/Pan Collector similar)

TO STOP:

A. Press STOP button on the CONTROL PANEL.
B. Check for and remove dropped tableware trapped in SCRAP BASIN.
C. Remove and drain SCRAP BASIN.
D. Remove SCRAP BASKET and dump waste into trash receptacle or compost bin.
E. Remove OVERFLOW PIPE to drain tank. Rinse SCRAP BASIN, SCRAP BASKET, OVERFLOW PIPE, and tank interior thoroughly.

HydroLogic® Control Operating Instructions

1. Press the START button to begin operation. 
   Note: If the Line Disconnect is in the OFF position it will need to be turned to the ON position.
   • Display will read “TANK FILL DELAY”.*
   • The pump then starts.
   
   Note: To bypass tank fill delay after emptying basket, press start button 2 times.

2. Choose from 3 modes of operation. Pressing ON/OFF will cycle thru them.

On/Off Mode - Display reads “SYSTEM ON”. Unit will run until turned off.

Water Saver Mode - Display reads “RUN TIME”. Unit will run at a normal flow rate until the operator leaves. If the operator leaves, the unit will run at a reduced flow rate until the operator returns or the run timer reaches 0:00. The unit will turn off when the run timer reaches 0:00. To increase or decrease the run time, use the + and - buttons to adjust to the desired run time. If the operator returns before the run timer reaches 0:00, the unit returns to normal operation and the run timer will reset.

Auto Start Mode - Display reads “AUTO START”. Unit will run at a normal flow rate until the operator leaves. If the operator leaves, the entire machine goes into standby and uses no water or electricity. When the operator returns, the unit starts and returns to normal operation. This mode doesn’t have a run timer and will stay in standby until turned off.

Note: An * appears in the upper left corner of the display when the operator is in range of the sensor.

3. Press the STOP button to end all operations.

U.S. Pat. No. 7,815,134
**How it works**

- Warm water enters the tank and the Collector pump recirculates water through the recirculation hose.
- As dishes are passed through the water plume, they are scapped and pre-rinsed at the same time. Soluble food waste washes through the holes in the scrap basket and into the tank reservoir.
- Insoluble and fibrous food waste is retained in the scrap basket for disposal.

**Troubleshooting**

**WARNING! DISCONNECT THE POWER TO THE SYSTEM BEFORE SERVICING.**

This troubleshooting guide is to provide basic checks to facilitate problem isolation and repair. All repairs should be made according to local codes and by a qualified technician.

**IMPORTANT!** Do NOT use corrosive chemicals for scrapping or cleaning purposes!
Equipment covered by this warranty:
All Salvajor commercial disposers, disposer systems, collector systems, accessories and parts.

Length of this warranty:
Parts and labor for 12 months from date of installation or 15 months from date of shipment from the factory, whichever expires first, on all disposers and systems. Accessories manufactured by Salvajor are covered for parts and labor when they are sold as part of the original disposer assembly or system package. Accessories not manufactured by Salvajor are covered for parts only. Accessories and parts sold separately are covered for parts and/or workmanship for 90 days from date of installation.

Warranty coverage:
Providing the equipment is unaltered, has been properly installed, maintained and operated, Salvajor will repair or replace at no cost, defective parts due to material or workmanship, if such service is performed by a Salvajor Authorized Service Center. Parts wear is not considered a defect.

Conditions not covered by this warranty:
Faulty or improper electrical installations, faulty or improper plumbing installations, disposer jammed by foreign object, tripped overload (re-set button), clogged drains, pump jams, clogged solenoid valves, blown fuses, abuse, accidental damage, unit improperly sized for application according to factory recommendations.

This warranty is limited to the continental United States, Hawaii and Canada.

GENERAL TERMS AND CONDITIONS OF SALE

These Terms and Conditions shall govern the transaction by and between The Salvajor Company (herein referred to as the “Seller”) and the customer or person or entity purchasing goods (“Goods”) from Seller (herein referred to as “Buyer”), with all such advice or acknowledgment from Seller relevant to the sale of the Goods and all documents incorporated by specific reference therein, and shall constitute the complete and exclusive agreement governing the sale of Goods by Seller to Buyer. Buyer’s acceptance of the Goods will manifest Buyer’s assent to these Terms and Conditions.

1. PRICES

Unless otherwise specified in writing by Seller, Seller shall have the right to change the price for the Goods to Seller’s price for the Goods at the time of shipment. All prices are exclusive of taxes, transportation and insurance which are to be borne by Buyer.

2. TAXES

All taxes or governmental charge (or increase in same) affecting Seller’s costs or which seller is otherwise required to pay or collect in connection with the sale, purchase, delivery, storage processing, use or consumption of Goods shall be for Buyer’s account and shall be added to the price.

3. TERMS OF PAYMENT

Net 30 days invoices will bear the date on which shipment is made and terms are based upon date of shipment and not on date of arrival. Seller shall have the right among other remedies, to terminate or suspend performance under any order, if Buyer fails to make any payment when due. Buyer shall be liable for all expenses, including attorney’s fees, relating to the collection of past due amounts. Delinquent payments shall bear interest at a rate to be determined by Seller, which shall not exceed the legal maximum rate, from the date due until paid. Should Buyer’s financial responsibility become unsatisfactory to Seller, Seller may require cash payments or satisfactory security.

4. SHIPMENT AND DELIVERY

Deliveries are made F.O.B. Seller’s shipping point. Risk of loss or damage and liability therefore shall pass to Buyer upon delivery to carrier. Shortages or damages must be acknowledged and signed for at the time of delivery. While Seller will use all reasonable commercial efforts to maintain the delivery date(s), all shipping dates are approximate and not guaranteed. Seller reserves the right to make partial shipments. If the shipment of the Goods is postponed or delayed by Buyer for any reason, Buyer agrees to reimburse Seller for any and all storage costs and other resulting expenses.

5. LIMITED WARRANTY

Subject to the limitations of Section 6 Seller warrants that the Goods manufactured by Seller will be free from defects in material and workmanship and meet Seller’s published specifications at the time of shipment under normal use and regular service and maintenance for a period of one year from the date of shipment of the Goods by Seller to Buyer. Buyer shall be responsible for any nonconformity resulting from misuse, abuse, neglect, normal wear and tear, Buyer’s negligence, unauthorized modification or alteration use beyond rated capacity, or improper installation, maintenance or application or to the extent that Seller has relied upon any specifications, information representation or operating conditions or other data supplied by Buyer or its agents to Seller in the selection or design of the Goods and the preparation of Seller’s quotation, and in the event that actual operating conditions or other conditions differ from those represented by Buyer and relied upon by Seller, any warranties or other provisions contained herein which are affected by such conditions shall be null and void.

If within thirty (30) days after Buyer’s discovery of any nonconformity with warranty within the warranty period, Buyer notifies Seller thereof in writing, Seller shall, at its own option, repair, correct or replace such nonconformity, or refund the purchase price. Buyer’s failure to give such written notice within the applicable time period shall be deemed an absolute and unconditional waiver of Buyer’s claim for nonconformity. Failure by Buyer to give such written notice within the applicable time period shall be deemed an absolute and unconditional waiver of Buyer’s claim for such nonconformity. Goods repaired or replaced during the warranty period shall be deemed to be new for the purpose of this warranty. Buyer agrees that in no event shall seller’s liability to buyer and/or its customers exceed the price paid by Buyer for the specific goods provided by Seller giving rise to the claim or cause of action.

Buyer agrees that in no event shall seller’s liability to buyer and/or its customers exceed to include incidental, consequential or punitive damages. The term consequential damages shall include without limitation loss of anticipated profits, business interruption loss of use or revenue, capital of loss or damage to property or equipment.

It is understood that any technical advice furnished by Seller with respect to the use of the Goods is given without charge and Seller assumes no obligation or liability for the advice given, or results obtained, all such advice being given and accepted at Buyer’s risk.

7. PATENTS AND COPYRIGHTS

Subject to the limitations of the second paragraph of Section 6, Seller warrants that the Goods sold except as are made specifically for Buyer according to Buyer’s specifications do not infringe any valid U.S. patent or copyright in existence as of the date of shipment. This warranty is given upon the condition that Buyer promptly notify Seller of any claim or suit involving Buyer in which such infringement is alleged and, that Buyer cooperate fully with Seller and permit Seller to control completely the defense settlement or compromise of any such allegation of infringement. In the event such Goods are held to infringe such a U.S. patent or copyright in such suit, and the use of such Goods is enjoined or, in the event of a compromise or settlement by Seller, Seller shall have the right, at its option and expense to procure for Buyer the right to continue using such Goods or replace them with non-infringing Goods, or modify same to become non-infringing, or grant Buyer a credit for the depreciated value of such Goods and accept return of them.

8. EXCUSE OF PERFORMANCE

Seller shall not be liable for delays in performance or for non-performance due to acts of God, acts of Buyer, war, fire, flood, weather, sabotage, strikes, or labor or civil disturbance, government requests, restrictions, laws, regulations, orders of actions, unavailability of or delays in transportation, default of suppliers, or unforeseen circumstances or any event or cause beyond Seller’s reasonable control Deliveries or other performance may be suspended for an appropriate period of time, unless so agreed by Seller. Buyer in the event of any of the foregoing, but the balance of the agreement shall otherwise remain unaffected as a result of the foregoing. If Seller determines that its ability to supply the total demand for the Goods or to obtain material used directly or indirectly in the manufacture of the Goods is hindered, limited or made impracticable due to causes set forth in the preceding paragraph, Seller may allocate its available supply of the Goods or such material (without obligation to acquire other supplies of any such Goods or material) among itself and its purchasers on such basis as Seller determines to be equitable without liability for any failure of performance which may result therefrom.

9. CANCELLATION

Seller may cancel this agreement at any time for any reason upon 30 days written notice. Unless otherwise agreed in writing by Seller, Buyer may not cancel this agreement for any reason.

10. CHANGES

Buyer may request changes or additions to the Goods consistent with Seller’s specifications and conditions. In the event such changes or additions are accepted by Seller, Seller may revise the price and dates of delivery. Seller reserves the right to change designs and specifications for the Goods without prior notice to Buyer, except with respect to Goods being made-to-order for Buyer.

11. ASSIGNMENT

Buyer shall not assign its rights or delegates its duties hereunder or any rights hereunder without the prior written consent of Seller, and any such assignment without such consent, shall be void. Seller may assign its rights and delegate its duties hereunder.

12. GENERAL PROVISIONS

These terms and conditions supersede all other communications, negotiations and prior oral or written statements regarding the subject matter of these terms and conditions. No change, modifications, rescission, discharge, abandonment, or waiver of these terms and conditions shall be binding upon the Seller unless made in writing and signed on its behalf by a duly authorized representative of the Seller. No conditions, usage or trade, course of dealing or performance, understanding, or agreement purporting to modify, vary, explain, or supplement these terms and conditions shall be binding unless hereafter made in writing and signed by the party to be bound and no modification shall be affected by the Seller’s receipt, acknowledgment, or acceptance of purchase orders, shipping instruction forms, or other documentation containing terms at variance with or inconsistent with these terms and conditions shall be binding upon the Seller unless made in writing and signed by the Seller.

13. COMPLIANCE WITH CERTAIN LAWS

These Goods shall be produced in compliance with the requirements of the Fair Labor Standards Act of 1938, as amended and Executing Order 11246.

Printed in USA Form No. II-SC/PC (08-16)
