Undercounter: Solid Door Freezer with Hydrocarbon Refrigerant

TUC-24F-HC

True’s undercounter units are designed with enduring quality that protects your long term investment.

- Designed using the highest quality materials and components to provide the user with colder product temperatures, lower utility costs, exceptional food safety and the best value in today’s food service marketplace.
- Factory engineered, self-contained, capillary tube system using environmentally friendly R290 hydro carbon refrigerant that has zero (0) ozone depletion potential (ODP), & three (3) global warming potential (GWP).
- All stainless steel front, top and ends. Corrosion resistant GalFan coated steel back.
- Interior - attractive, NSF approved, clear coated aluminum liner. Stainless steel floor with coved corners.
- Heavy duty PVC coated gray wire shelves.
- Automatic defrost system time-initiated, time-terminated.
- Foamed-in-place using a high density, polyurethane insulation that has zero ozone depletion potential (ODP) and zero global warming potential (GWP).

† Depth does not include 1" (26 mm) for rear bumpers.

▲ Plug type varies by country.

Specifications subject to change without notice.
**STANDARD FEATURES**

**DESIGN**
- True's commitment to using the highest quality materials and oversized refrigeration systems provides the user with colder product temperatures, lower utility costs, exceptional food safety and the best value in today's food service marketplace.

**REFRIGERATION SYSTEM**
- Factory engineered, self-contained, capillary tube system using environmentally friendly R290 hydrocarbon refrigerant that has zero (0) ozone depletion potential (ODP), & three (3) global warming potential (GWP).
- High capacity, factory balanced refrigeration system that maintains -10°F (-23.3°C) temperatures. Ideal for both frozen foods and ice cream.
- State of the art, electronically commutated evaporator and condenser fans motors. ECM motors operate at higher peak efficiencies and move a more consistent volume of air which produces less heat, reduces energy consumption and provides greater motor reliability.
- Condensing unit access in back of cabinet, slides out for easy maintenance.
- Automatic defrost system time-initiated, time-terminated.

**CABINET CONSTRUCTION**
- Interior - attractive, NSF approved, clear coated aluminum liner. Stainless steel floor with coved corners.
- Insulation - entire cabinet structure and solid door are foamed-in-place using a high density, polyurethane insulation that has zero ozone depletion potential (ODP) and zero global warming potential (GWP).
- Four (4) stationary castors. 31 17/32” (804 mm) work surface height. Two (2) front leg levelers included with unit for alternate use.

**DOOR**
- Stainless steel exterior with clear coated aluminum liner to match cabinet interior.
- Door fitted with 12” (305 mm) long recessed handle that is foamed-in-place with a sheet metal interlock to ensure permanent attachment.
- Positive seal self-closing door with 90° stay open feature. Door swings within cabinet dimensions.
- Magnetic door gaskets of one piece construction, removable without tools for ease of cleaning.

**SHELVING**
- Two (2) adjustable, heavy duty PVC coated wire shelves 20”L x 13 7/8”D (508 mm x 353 mm). Four (4) chrome plated shelf clips included per shelf.
- Shelf support pilasters made of same material as cabinet interior; shelves are adjustable on 1/2” (13 mm) increments.

**MODEL FEATURES**
- Evaporator is epoxy coated to eliminate the potential of corrosion.
- NSF/ANSI Standard 7 compliant for open food product.

**ELECTRICAL**
- Unit completely pre-wired at factory and ready for final connection to a 115/60/1 phase, 15 amp dedicated outlet. Cord and plug set included.

**OPTIONAL FEATURES/ACCESSORIES**
- Upcharge and lead times may apply.
- 230 - 240V / 50 Hz.
- Heavy duty 16 gauge tops
- Exterior rectangular digital temperature display (factory installed)
- Left hinge available
