## FLAKE AND NUGGET ICE MACHINES

### Superior performance with every cup.

Now the nugget and flake ice that customers love is available with more innovative technology than ever before. Units feature sealed, maintenance-free bearings ensuring maximum reliability and a long machine lifetime. With next-generation diagnostics like AutoAlert indicator lights on the new Scotsman Prodigy Plus flake and nugget ice machines, operators can help ensure superior performance while enjoying maximum efficiency — every day. And with features like advanced ice level control, a small operational footprint and easy-access service from the front panel, Prodigy Plus flake and nugget ice machines are the smart choice for today's busy foodservice environments.

FLAKE AND NUGGET ICE MACHINES

Sealed, maintenance free bearings ensure maximum reliability & contribute to long machine life.

AutoAlert indicator lights are easily visible from afar.

External QR code provides one-step manual and warranty access.

Available in Original Chewable Nugget Ice, H² Nugget Ice and Flake Ice.

## Scotsman.

### A true industry leader.

As the world's largest manufacturer of ice systems with over 300 models of ice machines, bins and dispensers, Scotsman — a division of Ali Group North America — is dedicated to developing the next-generation technologies that make ice production more convenient, efficient and reliable. And 99% of Scotsman ice equipment is American-manufactured at our award-winning production facility in South Carolina.

### The Prodigy Plus Difference.

#### ENHANCED RELIABILITY

Models feature Scotsman's sealed, maintenance-free bearing design, a configuration that eliminates the need for grease. This not only saves valuable time and labor but also ensures a sanitary ice supply.

#### COST-SAVING EFFICIENCY

Our Prodigy Plus flake and nugget ice machines are highly efficient, using up to 50% less water and 15% less energy than cube ice machines — good news not only in terms of conservation, but for the bottom line as well.

#### SELF-MONITORING TECHNOLOGY

The Prodigy Plus flake and nugget ice machines feature AutoAlert external indicator lights that continuously communicate the machines' status in an easily visible location that's ideal for busy foodservice environments. By immediately alerting staff to key operational issues, Prodigy Plus flake and nugget ice machines maintain the highest levels of ice production.

#### SIMPLE, EFFECTIVE CLEANING

Every Prodigy Plus flake and nugget ice machine features a conveniently located air filter on the front panel, making it easy to remove, rinse and reuse. And with powerful antimicrobial protection molded directly into key components, Prodigy Plus flake and nugget ice machines offer more peace of mind than ever.

#### EASY-ACCESS SERVICING

The durable, self-aligning front panel of the Prodigy Plus machines can be easily removed, allowing clear access to internal components. Inside, a diagnostic code display helps technicians determine issues quickly and accurately for a right diagnosis the first time. And with the industry's only externally located QR code access, Scotsman makes it easier than ever to connect to parts lists, cleaning instructions, manuals, warranty history and more.

#### CHOICE OF NUGGET ICE

Now offering the choice between Scotsman's softer, Original Chewable Nugget Ice and the harder, H² Nugget Ice. Nugget Ice also displaces more liquid than cubed ice, lowering syrup costs per cup.

### The next level.

#### VARI-SMART ICE LEVEL CONTROL

Scotsman's advanced ice level control system utilizes field-proven ultrasonic technology to maintain the selected ice level. It has the unique ability to customize ice levels — meaning customers get the ice they need while operators save water and energy.

#### PRODIGY SMART-BOARD ADVANCED FEATURE BOARD

This optional advanced feature board provides you with data that can be displayed on-screen or transmitted remotely for early, fast diagnosis of operational issues. Plus, use this in conjunction with optional Vari-Smart and program ice levels for seven days.

For more information on our complete line of Prodigy Plus flake and nugget ice machines, call 1-800-SCOTSMAN (1-800-726-8762) or visit [www.scotsman-ice.com](http://www.scotsman-ice.com).
