

Pepsi Equipment Guide

Pepsi® is a registered trademark of PepsiCo, Inc., Purchase, New York

Innovation. Performance. Efficiency.

Perfect soft drinks require the right beverage dispensing equipment. We empower our customers using a needs-based approach with systems and solutions that are innovative, high-performing and efficient.

Manitowoc's broad range of Pepsi-certified beverage cooling and dispensing equipment allows you to satisfy your customer's thirst with only the highest quality product, both economically and efficiently.

Manitowoc solutions range from Servend's smart-designed ice and beverage dispensers, to Multiplex's eco-friendly Icecore beverage coolers. Supported by Manitowoc's industry leading ice machine line, Indigo, and a variety of other value adding accessories, Manitowoc is your full-service beverage equipment solution.

Manitowoc Foodservice: Talk with Manitowoc

Manitowoc Foodservice, a division of The Manitowoc Company, Inc., designs, manufactures and supplies premium food and beverage equipment for the global foodservice market. Manitowoc Foodservice offers customers unparalleled operator and patron insights, collaborative kitchen – solutions, culinary expertise, and world-class implementation support and service, whether locations are around the corner or across the globe. With operations in the Americas, Europe, and Asia, the company has a portfolio of best-in-class brands including Cleveland, Convothem®, Delfield®, Fabristeel, Frymaster®, Garland®, Kolpak®, Koolaire®, Kysor Panel Systems®, Lincoln, Manitowoc® Ice, Multiplex®, Merrychef® and Servend®.

One-stop supplier for leading beverage equipment

Manitowoc is dedicated to leading the way in ice and beverage dispensing technology and innovation.

SVI-150 Dispenser

DI-1522-6-SL

CEVI-30

Ice / Beverage Dispensers and Ice Dispensers

Servend's Ice / Beverage Dispensers are made for dispensing consistent, high-quality drinks. The wide selection of available products answers multiple market needs: modular design for high flexibility, large ice storage for high volume accounts, customizable drinks, and the quickdraw™ ice portioning system for speedy service.

Drop-ins and Towers

Servend's Drop-in Series offer maximum beverage cooling capacity in post- and pre-mix models, and are designed for quick, easy pre-plumbing and the machines are available with drop-in or freestanding ice chests.

Countertop Electric Dispensers

Servend's Countertop Electric Beverage Dispensers offer maximum beverage cooling and customer-satisfying quality – from our premium CEVi range with IntelliCarb and easy service to our simple, all-in-one dispenser and beverage cart combinations that are perfect for operations requiring mobility.

ICECORE™ 15 R 290

Variety Valve Autofill Lever

Carbonator 43 Series

Indigo Ice Machine i1200/B 570

Remote Coolers

ICECORE™ remote cooling and carbonating systems have been developed and designed to improve reliability and lower cost servicing by using energy efficient natural refrigerants such as R-290 (Hydrocarbon). Hydrocarbon gases enable better performance from smaller compressors, reducing the end users' total life cost.

Beverage Valves

Manitowoc offers a wide selection of beverage valves to meet various customer requirements, including long-life post-mix valves and Variety Valves, which enable three flavors to be dispensed from a single valve. All are available with either push button, portion control, automatic fill lever or sanitary push lever.

System Components

Manitowoc's beverage dispense systems can be made even more efficient with the addition of optional system components such as carbonators and water boosters by McCann's.

Indigo Cube Ice Machines

The Indigo™ ice machine from Manitowoc Ice offers the Intelligence to communicate any issues or maintenance needs to the end user. Its features in Clean-ability are unmatched. And, it's more Efficient by using less water and energy than its competitors.

SV Series

Ice / Beverage Dispensers

SV-150
SV-175
SV-200
SV-250

SV Range

- Durable, reliable design for consistent quality performance
- No-hassle one-piece structural base
- Recessed cold plate inlets to maximise space behind the splash panel
- Modular design
- Optional non-carb Variety Valve
- Manual fill or top-mount with compatible ice machines*

* Contact factory for adapter kit requirements for top-mounted ice machine applications.

Standard Features

- LED lighted merchandiser
- Pepsi graphics
- Key switch
- Leg kit
- Drain kit

- Using energy efficient natural refrigerants such as R-290 (Hydrocarbon)
- Speed-controlled soda recirculation
- Intelligent, multi-lingual electronic controls
- Improved energy efficiency: 65 % energy savings*
- One-tool access to the inside of the machine for easy servicing
- Improved performance and reliability through use of EC motors
- Lower cost of ownership
- Options: 'Remote Diagnostics Telemetry' package allows 'web' access to the unit to detect, prevent and manage service and maintenance issues

* Validated through field trials between standard R-134a and R-290 ICECORE™

ICECORE™ 15 R 290

ICECORE™ 30 R 290

Model	Dispense Capacity (Ice Bank only*)	Ice Bank Weight	Electrical Requirements	Dimensions (W x D x H**)
ICECORE 15	176 x 340 ml drinks @ 4.0°C	15 kg	220 – 240 V AC 50 Hz	87.00 x 52.60 x 64.80 / 61.00 cm
ICECORE 30	305 x 340 ml drinks @ 4.0°C	26 kg	220 – 240 V AC 50 Hz	98.20 x 59.00 x 67.80 / 64.00 cm

* 24 °C Ambient & Water, No Python, ** Height including castors/rubber feet

ICECORE™ Series

Remote Coolers

ICECORE™ 44HC
ICECORE™ 44G
ICECORE™ 50G

ICECORE™ 44HC, 44G and 50G

- Using environmentally friendly R-404 A and R-290 refrigerants
- Improved energy efficiency: up to 50 % energy savings*
- Provides the most consistent, high-quality beverages in the industry
- Remote refrigeration unit and recirculation system keep heat and noise out of the serving area while providing chilled carbonated water and syrup to all beverage dispensers
- All cooling water is recycled with virtually no waste water
- Ice consumption and counter space is reduced compared to coldplate systems

* Against competitor units, shown in lab testing

Multiplex ICECORE™ 44HC

Model	Refrigerant	Drink Capacity *	Ice Bank Size (nominal)	Electrical Requirements	Dimensions (W x D x H)
ICECORE™ 44HC	R-290	500/288	140 lbs/63.3 kg	220V/50Hz/1ph	20.50" x 28.16" x 29.88" 52.07 x 71.54 x 75.90 cm
ICECORE™ 44G	R-404 A	500/288	140 lbs/63.3 kg	220 – 240 V AC 50 Hz	23.00" x 31.13" x 34.88" 58.42 x 79.07 x 88.60 cm

Pulsar 40i
Pulsar 60i
Pulsar 80i
Pulsar 100i

Pulsar iSeries

- Intellicarb approved
- Integrated cold carbonation
- Electronic ice bank control
- Integrated water pressure regulators and solenoid valve (with still water control)
- Product lines enter and exit in a single bundle
- Base model with 6/8 syrup coils and 1 still water coil
- Options: water-cooled system, satellite cooling, electric still water control

** Validated energy saving, in the field, between a standard R134a and R290 ICECORE™*

Model	Peak Dispense Capacity	Ice Bank Weight	Electrical Requirements	Dimensions (WxDxH**)
Pulsar 40i	4,700 kJ	13.2 kg	230 V AC 50 Hz	70.00 x 43.00 x 55.00 cm

Pulsar 100i	17,800 kJ	50 kg	230 V AC 50 Hz	110.00 x 62.50 x 83.00 cm

** 24°C Ambient & Water, No Python, ** Height including castors/rubber feet*

GP Post-Mix Valves

GP-424
GP-464

Beverage Valves

GP Post-Mix Valves

- Offer consistent drink quality and performance over a broad dispense range
- High reliability
- Long-life performance
- Ease of maintenance
- Superior cup carbonation levels on Pepsi System
- Global performance for all dispensing applications:
424: 1.5 – 3.0 ounces per second flow rate
464: 3.0 – 4.0 ounces per second flow rate

GP Push Button

Variety Valves

Beverage Valves

Variety Valves

- Three flavors can be dispensed from each valve
- Maximizing selections while minimizing dispenser size and counter space
- Superior cup carbonation levels on Pepsi System
- Ceramic flow controls maintain consistent ratio control, eliminating frequent adjustments
- Solid mounting platform ensures a mechanically stable product
- High flow diffusion system reduces foam, delivers excellent drink quality
- Modular design ensures ready availability of parts
- Variety Valve operates over a complete flow range from 1.5 to 3.0 oz./second

Carbonators

43 Series Carbonators
E Series Carbonators

System Components

43 Series / E Series Carbonators

- Reduced service time
- Improved diagnostics
- Lower costs
- No need to shut off CO₂ or water during service
- Diamond brite stainless steel construction resists corrosion
- 5-year warranty on carbonator tank and liquid level control
- Certified by NSF and UL. Lead content certified for compliance with California AB-1953 & Vermont Act 193.

Standard Features*

Two-piece probe design
Encapsulated electronics package
Liquid level float assembly
Heat sink probe

** See specification sheet for complete features and specifications*

E-Series

Model	Model number	Electrical Requirements	Tank Capacity	Water Capacity	Soda Outlets	Dimensions (WxDxH)

Water Boosters

Econo Boost

System Components

Econo Boost Water Boosters

- Controls pressure fluctuations from incoming water systems
- Provides consistent flow of water to beverage dispensing equipment
- Stainless steel water tank with McCann's proprietary diaphragm design which completely evacuates water from the tank when incoming water supply is shut off
- Base designed for floor use, table use, or as wall-mount installation
- Certified by NSF and UL. Lead content certified for compliance with California AB-1953 & Vermont Act 193

Standard Features*

- Vibration dampening feet
- Aquatec pump/motor combo
- Stainless steel fittings
- Schrader connection for easy tank pressure check
- 180 PSI pressure relief valve

* See specification sheet for complete features and specifications

Indigo™ Series

Ice Machines & Dispensers

Indigo™ Series Cube Ice Machines

- Intelligent Diagnostics™: Provide preventative maintenance and diagnostic feedback 24 hours a day, 7 days a week
- EasyRead™ Display: Communicates operating status, cleaning reminders, and asset information through a blue illuminated display
- Programmable Ice Production: By On/Off Time, Ice Volume or Bin Level (with accessory bin level control) to further improve energy efficiency and savings
- Acoustical Ice Sensing Probe: For reliable operation in challenging water conditions
- Available LuminIce™ Growth Inhibitor: Controls the growth of bacteria and yeast within the foodzone
- DuraTech™ Exterior: Provides superior corrosion resistance and the stainless finish with innovative clear-coat resists fingerprints and dirt
- Easy to Clean Foodzone: With hinged front door for easy access, removable water-trough, distribution tube, curtain, and sensing probes for fast and efficient cleaning
- Select components are made with AlphaSan antimicrobial

Indigo i-1200 / B-750 Bin

S Series Ice Dispensers

Ice Machines and Dispensers

S-150
S-200
S-250

S Series

- Durable ice dispenser with modular design
- No-hassle one-piece structural base
- Strengthened drive train
- Surround view™ merchandiser with attractive “ice” graphics draws customer attention
- Manual fill or top-mount with compatible ice machines*
- Options: Extended front splash panel, Flomatic water valve and side splash panels
- S250 model available with Flomatic 424 and 464 beverage valves, available in sanitary lever, push button, portion control and autofill valve**

* Contact factory for adapter kit requirements for top-mounted ice machine applications., ** Other valves available, contact factory for details.

Standard Features

- LED lighted merchandiser
- Ice graphics
- Leg kit
- Drain kit

S-200

S-250 with water valve option and Manitowoc Ice S-450 ice machine

Model	Approx. Shipping Weight	Ice Storage Capacity	Electrical Requirements (Dispenser)	Dimensions (WxDxH**)

* Also available: 220V/50Hz/1, ** Height dimension without full lid. Add .50" (1.27 cm) for full lid.

M Series Ice Dispensers

M-45
M-90

Ice Machines and Dispensers

M Series

- Long equipment life thanks to simple design, upfront serviceability, and quality construction
- Patented paddle-wheel ice dispenser technology maximizes counter space and allows more ice to be dispensed from the bin
- Push lever or push button ice dispense available
- Manual fill only*
- Dispenses any size cube ice up to one inch square (flake ice is not recommended)
- Options: LED lighted merchandiser, 4" (10.17 cm) leg kit, extended splash panel

* M-45 and M-90 ice dispensers will not accommodate a top-mounted ice machine. Beverage valves are not available on M-45 and M-90 ice dispensers.

Standard Features

- Stainless steel exterior cabinet with merchandiser and "Ice" sign
- Rocking chute ice dispense

M-45

M-90

Model	Approx. Shipping Weight	Ice Storage Capacity	Electrical Requirements (Dispenser)	Service	Dimensions (WxDxH)
